**SMART SUSTAINABILITY...**

Educating Self To Sustain The World

**INDIRA GROUP OF INSTITUTES, PUNE**

[www.indiraedu.com](http://www.indiraedu.com)

## Indira Group of Institutes, Pune

Shree Chanakya Education Society's "Indira Group of Institutes", Pune was established in 1994, with the explicit vision to provide sustainable impetus to the corporate and entrepreneurial abilities in the youth. At Indira Group of Institutes (IGI), we instill in our students the habit of learning, unlearning, and relearning and offer them the best possible opportunities and experience which will allow them to reach their highest potential.

Having traversed the journey of 28 years we have made certain significant achievements which are the building blocks for achieving further heights. The accomplishments that made us what we are today and the vision for tomorrow keeps us going.

### Vision

To create a centre of academic excellence in the field of Management and IT Education with the purpose of fulfilling the industry requirements through holistic development of the future performers, who are also good human beings, and possess the right knowledge, skill sets & attitude towards their work and life.

### Mission

To promote a learning environment that welcomes and honours men & women from diverse culture for involving themselves in intellectual inquisitiveness, explore knowledge dimensions for future application in industry, business and life. To develop managers and entrepreneurs in the field of Management and IT, who can serve as engines of national and global economic growth & innovation. To foster strategic alliances with industry for research and its application. To inculcate the ethical, social and moral values in all our stakeholders which is the basis of humane social order.

"Sustainability: Cultivating Change in Education."

## Smart Sustainability...

Educating Self To Sustain The World

*"We don't have to engage in grand, heroic actions to participate in change. Small acts, when multiplied by millions of people, can transform the world." - Howard Zinn*

We often have a question in our mind, how can we positively influence sustainable development. It is necessary to understand that it is not only big companies that can work towards sustainability, but we all can contribute our grain of sand. Even a small effort like avoiding plastic usage, tree plantation and maximising public transportation can make a big difference in the long run.

With Sustainability moving from optional to 'must have aspect', we all need to adopt smart ways of achieving this goal.

Sustainability is important for long lasting progress. It is necessary to Mitigate the harmful effects of carbon footprints, global warming while encouraging the Adoption towards new renewable energy, eco-friendly techniques. We, as a society require to have Regenerative outlook, where we give back much more than we take from nature. Ultimately, we can Transform the society into a safer and balanced planet to live.

Sustainability is a key factor in not only for the business economy, but also in education. It tends to encourage the future generations to achieve an equitable society with values and attitudes that would help to integrate the environment with the economic and social dimensions. We at IGI aim to enhance the capacity of each individual to understand the importance of sustainable development and contribute effectively for a better future through different seminars, workshops, and events.

## CHAIRPERSON'S MESSAGE

Dear Corporate Partners,

Today's educators have a crucial responsibility in terms of sustainable education. It's essential to raise the next generation into eco-conscious, self-sufficient world citizens who understand the immediacy of environmental responsibility.

We at Indira, encourage and empower the future generations to achieve an equitable society with values and attitudes that would help to integrate the environment with the economic and social dimensions. These values are best taught by leading through an example and some such initiatives undertaken at Indira are ISMI (to help children of the farmers who committed suicide), Indira Care Club (to offer emotional support, guidance, and motivation to students in need), Covid Care Club (to provide support and assistance to citizens with hospital beds, Plasma and equipment such as Ventilators, Oxygen supplies, etc) and Covid Relief Initiative (Waiver of 50% fee for students who have lost one parent and a 100% fee waiver for students who have lost both parents). A donation drive was also conducted to help the needy, quarantined and senior citizens by supplying medicines and providing hygienic meals.

Inclusive education for all is the fundamental corner stone at Indira. "Education for Sustainable Development" allows every human being to acquire the knowledge, skills, attitudes and values necessary to shape a sustainable future.

So, for a better society and to enhance the capacity of each individual it is important to understand the importance of sustainable development and contribute effectively for a better future. We as a citizen of our country should come together to make this world a better and safer place to live with care, compassion, kindness, and humanity.

Best Wishes,

**Dr. Tarita Shankar**

Chairperson, Indira Group of Institutes, Pune

*"You have to hold yourself accountable for your actions, and that's how we're going to protect the Earth."*

## GROUP DIRECTOR'S MESSAGE

Dear Esteemed Partners,

Sustainable development is the key to the stable growth of the economy. It not only contributes to the development of the present economy but will also lead to its development in the future. For this we need to focus on Industrialization, Infrastructure, and Innovation. Infrastructure is required for smooth running of enterprises and society at large. Industrialization gears up the economic development and boosts multiple job opportunities. Innovation enhances the technological abilities of industrial sectors to compete in global markets.

While all three are necessary for development and progress, it should be done keeping in mind that it does not create an imbalance and hence new methods, practices and innovations will be necessary. Technology will be an important part of the solution, but only partly. The key will be to nurture a culture that has the discipline, patience, and courage to look beyond short-term solutions and opt for business practices that can offer the greatest positive impact and longevity.

Indira Group of Institutes plays a vital role in balancing Social equity, Economic growth and Environmental protection practices. For this we started 'Indira Sustainable Maharashtra Initiative' on 26<sup>th</sup> November, 2015. With the same motive, we have become a member of 'United Nations-Principles of Responsible Management Education (PRIME)' forum. IGI is imparting quality education to the leaders and entrepreneurs of tomorrow. Apart from giving cutting edge knowledge we believe in involving our students in various experiential learning initiatives so that they become more responsible and sensitive to social and environmental issues like climate change, carbon footprint, disaster management, risk reduction, poverty reduction, bio diversity, and sustainable consumption.

Let's come together to make this world a better and safer place to live.

Best Wishes,

**Prof. Chetan Wakalkar**

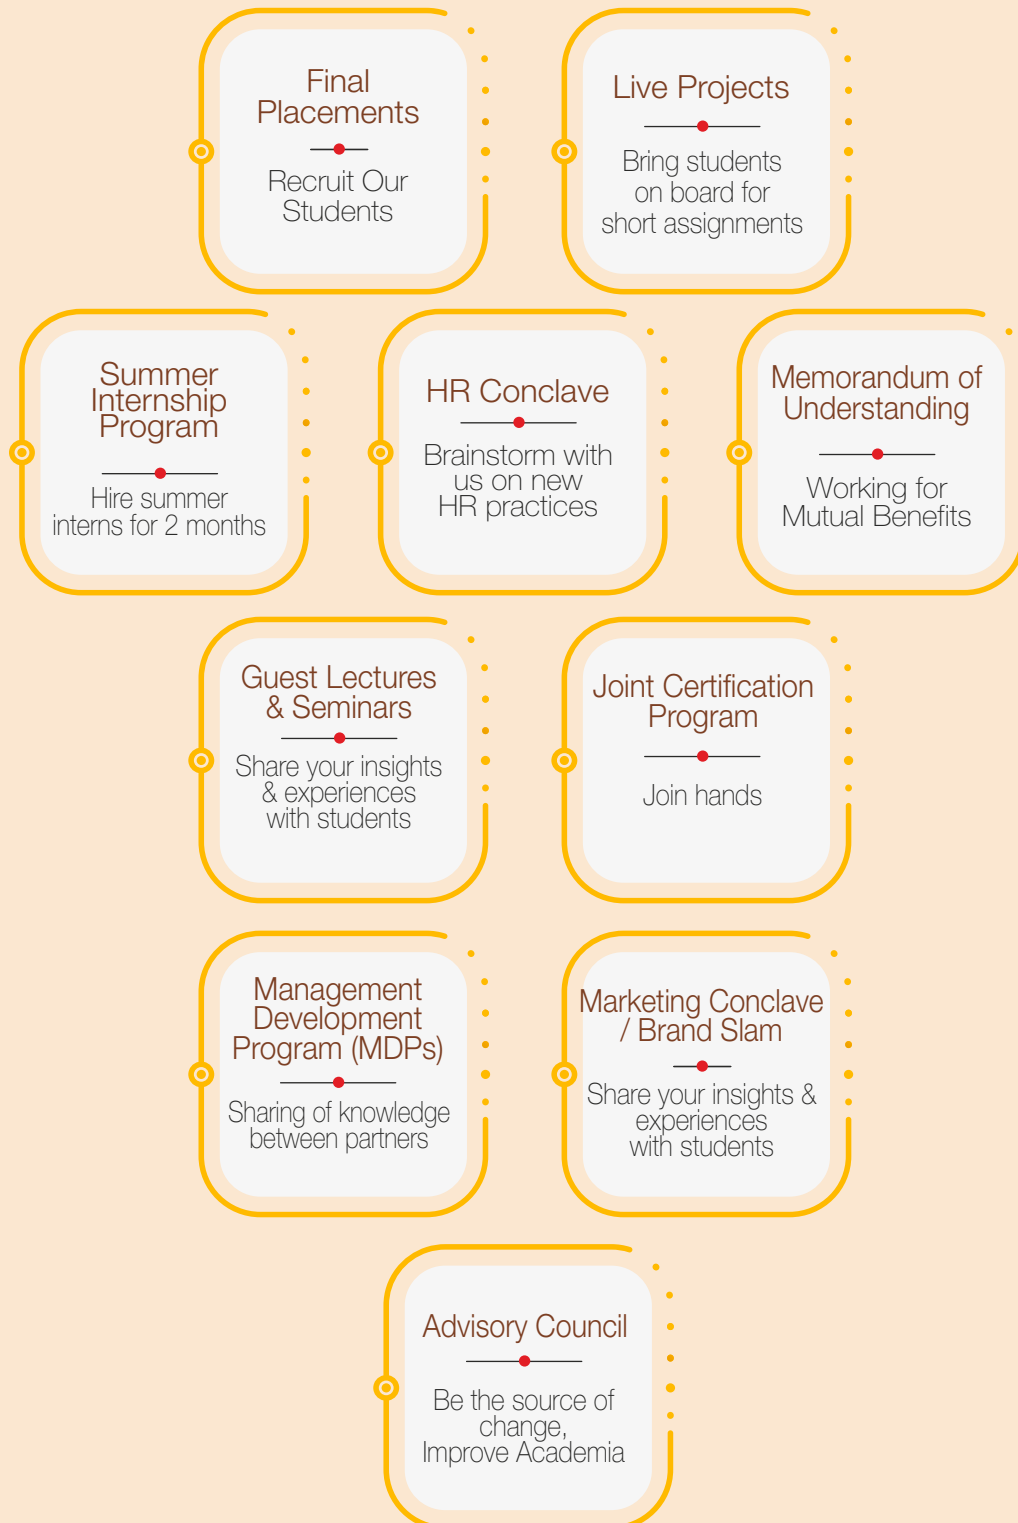

Group Director, Indira Group of Institutes, Pune

## CORPORATE ON CAMPUS

Indira has always been blessed for being one of the most preferred partner for Corporates. This is because of our contemporary approach, hard work & ever evolving behaviour. We have always partnered actively with corporates for improving ourselves & vice versa. IGI would like to welcome our Esteemed Corporate Partners to be a part of our onward journey.

*“Excellence without effort is as futile  
as progress without preparation.”*

## EXECUTIVE DIRECTOR’S MESSAGE

Dear Recruiters,

At the outset, I would like to express my gratitude to all our esteemed clients for your continuous support and cooperation in the last two years which were quite challenging. We are really proud of the resilience, flexibility and immense support provided by you during those tough times. Today I am happy to share that we have placed 100 % of our students with your support. Also the silver lining is, that the Indian economy has recovered and the bounce back has been fast.

We have encouraged students to build a positive and right mindset which will make them capable to be productive in their chosen fields. They need to understand that learning is a never-ending process. With the changing times and evolution of the industry and its demands, it is necessary that they keep themselves updated with the emerging trends and happenings in the industry.

At Indira, we do not merely build fine managers, but we help them to think differently and arrive at holistic solutions. We have left no stone unturned in making the student 'industry ready' by not only equipping them with concepts and market-based models but also by providing them with opportunities to interact with industry experts and leaders through corporate connect sessions.

We are very happy with the strong mutually enriching and long-term association which we share with many esteemed organisation in the past few years and we would like to continue this association in the future too.

It gives me immense pleasure to invite you for our Campus Placements for the Batch of 2021 -2023.

Best Wishes,

**Ms. Madhuri Sathe**

Executive Director – Corporate Relations  
Indira Group of Institutes, Pune

## CSR ACTIVITIES

Enhancing our Social Standing  
 "A little bit of humility can always change the world."

### COVID Care Club

Under the Initiative of COVID Care Club, healthy meals were distributed to various hospitals and people who were house quarantine. Plasma donation drive was a critical initiative carried out under COVID Care Club.

During the unprecedented time of COVID, Dr. Tarita Shankar came ahead to help the needy. She has created a platform for the members of Indira family, where she listens to their problems, guides, and helps them to resolve it.

IGI provided support and assistance to citizens with hospital beds, Plasma and equipment such as Ventilators, Oxygen supplies, etc and Covid Relief Initiative ( Waiver of 50% fee for students who have lost one parent and a 100% fee waiver for students who have lost both parents.) A donation drive was also conducted to help the needy, quarantined and senior citizens by supplying medicines and providing hygienic meals.

### PRME – Participation in Forum

The PRME which is a UN initiative is inspired by Global Compact driving businesses to engage in socially responsible and sustainable business practices. IGI declares its willingness to progress in the

implementation, within our institution.

- Under PRME, IGI has done various activities aligned with principles like Breast Cancer Awareness, Case Study Completion, Career Leadership and Development Programme (CLDP), Indira Global Leadership Lecture Series.

Under PRME students had attended some international lecture series in the year 2021-2022:-5th Gender Equality Summit 2022 Inclusive Technology and Innovation in mitigating Climate Crises.
